

Dear FCC Commissioners & Staff:

It's amazing to me that you all (FCC) can use our money to come up with all of these ridiculous regulations that will ultimately limit our ability to live in a competitive environment. As we all know, competition is what lowers pricing on these VERY PRICY products.

Who knows, maybe we can get some lobbyists together that will lobby the U.S. House of Representatives to completely shut-down or limit the abilities of the FCC? Something to ponder!

Sincerely,

Sherry E. Jacob
